

ELECTRONICS & COMMUNICATION ENGINEERING DEPARTMENTAL NEWSLETTER

AUTUMN 2023, VOL-1 ; NO-2

National Institute of Technology Srinagar
Srinagar, Jammu and Kashmir 190006

About ECE Department

ECE Department Building

The Department of Electronics and Communication Engineering was established in 1984 and offers B.Tech Degree in Electronics and Communication Engineering, M.Tech Degree in (1) MicroElectronics (ME) and (2) Communication and Signal Processing (CSP). Department aims to produce quality professionals to compete globally and excel by carrying out basic and applied research in emerging areas by forging strong industry-institute interaction. The Department also offers the Doctoral programmes in the field of Biometrics, Communication, MicroElectronics, Signal/Image Processing, Machine learning, Network security and VLSI Design. The Department is equipped with contemporary laboratory equipments required for the excellent growth of students. The Department has state of art laboratory including VLSI Lab, Optical fiber Communication Lab, Image Processing Lab, Information and Network Security Lab, Biometric Lab and machine learning Lab. Dr. Gausia Qazi is the Present Head of Department. The real strength of the Department lies in its qualified, dedicated and motivated faculty.

Prof. Sudhakar Yedla
Director NIT Srinagar

Dear Readers & members of the Department of Electronics and Communication Engineering,

It gives me immense pleasure to address you in this second issue for Autumn 2023 of the Department's Newsletter. This Newsletter serves as a valuable platform to showcase the Department's achievements, ongoing research endeavours, and the vibrant academic environment that fosters innovation and excellence. I commend the ECE Department for its efforts in bringing out this Newsletter. It is a testament to the Department's dedication to Communication, collaboration, and transparency.

The Department of Electronics and Communication Engineering has consistently been at the forefront of technological advancements, making significant contributions to the field of Electronics and Communication.

The publication of this Newsletter is a significant milestone for the ECE Department. It serves as a platform to share its research findings with the wider community and connect with its alumni and stakeholders. The Newsletter will also provide insights into the Department's plans and aspirations for the future leads to prospective collaborators.

Once again, I extend my sincere congratulations to the Department on the launch of this Newsletter. I wish the ECE Department continued success in its pursuit of excellence in education, research, and innovation.

Message from HOD

Dr. Gausia Qazi
HOD ECE Dept.

It gives me immense pleasure to address you in this 2nd Edition of the Department's Newsletter. This Newsletter serves as a valuable platform to showcase the Department's achievements, ongoing research endeavors, and the vibrant academic environment that fosters innovation and excellence. It is a testament to the Department's dedication to Communication, collaboration, and transparency.

The Department of Electronics and Communication Engineering has consistently been at the forefront of technological advancements, making significant contributions to the field of Electronics and Communication. The Newsletter serves as a platform to share Department's research findings with the wider community and connect with its alumni and stakeholders. The Newsletter will also provide insights into the Department's plans and aspirations for the future.

Through this edition of the Newsletter, I want to bring forth some of the recent initiatives taken by the Department to enhance efficiency in the Teaching process. With this semester, As per newly adopted policy, sectioning of the classes was introduced which reduced the number of students to be addressed in each class/section and hence providing an opportunity for better and more interactive learning. Besides this, the launch of the Mentor-Mentee interaction initiative provides a chance for students to clear off all their doubts. In addition, the launch of remedial classes his further benefitted the students.

Once again, I extend my sincere congratulations to the Department on the launch of this edition of Newsletter. I wish the ECE Department meets continued success in its pursuit of excellence in education, research, and innovation.

Mission, Vision & PEOs of the Department

Vision of the Department

- To contribute to nation and the world by developing a high quality human and technological resource through excellence in the field of Electronics and Communication Engineering and research.

Mission of the Department

- To generate new knowledge by engaging in cutting edge research.
- To impart quality teaching-learning-experience with state of the art curriculum.
- To increase the visibility of academic programs globally and attract talent at all levels.
- To undertake collaborative projects which offer opportunities for long term interaction with academia and industry.
- Sustained interaction with the alumni, students, parents, faculty and other stake holders to stay relevant in the globalized environment.
- To develop human potential to its fullest extent so that intellectually capable and imaginative gifted leaders can emerge in a range of professions.

Program Educational Objectives (PEOs)

- To impart analytic and thinking skills to develop initiatives and innovative ideas for R&D, Industry and societal requirements.
- To understand the facets of advanced technologies, processes and materials necessary in the engineering field.
- To provide sound theoretical and practical knowledge of E&C Engineering, managerial and entrepreneurial skills to enable students to contribute to sustenance of society with a global outlook.
- To inculcate qualities of teamwork, good social, interpersonal and leadership skills and an ability to adapt to evolving professional environments in the domains of engineering and technology.
- To appreciate the significance of collaborations in designing, planning, and implementing solutions for practical problems and facilitate the networking with national research and academic organizations.

Faculties

Prof. Ajaz Hussain Mir
(HAG and Professor)

Area of interest: Image Processing, Security; Networks

Er. Aijaz Ahmad Mir
(Associate Professor)

Area of interest: Image Processing, MIS

Dr. Gausia Qazi
(Associate Professor)

Area of interest: Optical Fibre Communication Systems, Opto-Electronic Devices, RF Communication Systems

Dr. Gh. Rasool Begh
(Associate Professor)

Area of interest: Cognitive Radio, Cooperative Communications, Error Control Coding, Full Duplex Communications, UAV

Dr. Shahid Mehraj Shah
(Assistant Professor)

Area of interest: Information Theory, Wireless Communication, Machine Learning, Game Theory, Physical Layer Security, Cyber Physical Systems

Prof. Najeeb-ud-Din
(Professor)

Area of interest: Device Modelling, VLSI, MicroElectronics

Dr. Farida Khursheed
(Associate Professor)

Area of interest: Digital Image Processing, Image Security, Network and Cloud Security, Biometrics, Computer Vision, Medical Imaging, Deep Learning, Natural Language Processing.

Er. Abdul Gaffar Mir
(Associate Professor)

Area of interest: Analog/ Digital Electronics, Computer and Network Security, Image Processing

Dr. Sheikh Aamir Ahsan
(Assistant Professor)

Area of interest: RF Characterization, Compact modeling for Industry standardization, GaN HEMTs, 2D-Material-FETs, CMOS, Machine Learning for Semiconductor Research

Dr. Omkar Singh
(Assistant Professor)

Area of interest: Digital Signal Processing, Biomedical Signal Processing, Wavelets and Filter Banks, Adaptive Filters

Dr. Amandeep Singh
(Assistant Professor)

Area of interest: NanoElectronics and VLSI Design: Semiconductor device modelling and circuit simulation using SPICE models, Novel Semiconductor Devices

Dr. Brajendra Singh Sengar
(Assistant Professor)

Area of interest: Simulation Study of Semiconductor Devices, Fabrication of Semiconductor Devices, Thin Film Solar Cells, Application of Machine learning in Semiconductor based devices

Dr. Amit Kumar
(Assistant Professor)

Area of interest: Mutual Coupling Reduction, MIMO Antennas, UWB-MIMO Antennas, CP Antennas, mm-wave Antennas, Metamaterials, Antipodal Vivaldi Antenna, Rectenna, Massive MIMO

Dr. Shoaib Amin Banday
(Assistant Professor - Contract)

Area of interest: Medical Image Analysis, Machine Learning for Healthcare Assistive Systems, Image Security

Dr. Pankaj Kumar Sharma
(Assistant Professor - Contract)

Area of interest: MicroElectronics and VLSI Design, Current Mode Circuit, Mem-elements (Memristor, Memcapacitor, Meminductor) Emulator Design

Dr. Burhan Khurshid
(Assistant Professor)

Area of interest: VLSI Signal Processing Architectures, Architectural Design of Digital Systems, FPGA based design

Dr. Ashok Kumar
(Assistant Professor)

Area of interest: Analog VLSI Circuits: Voltage, Current and Mixed-Mode, MOS and Bipolar Analog Circuit Design, MicroElectronics Devices

Dr. Yusra Banday
(Assistant Professor - Contract)

Area of interest: Millimeter wave Communication

Dr. Umer Ashraf
(Assistant Professor - Contract)

Area of interest: Wireless Communication

Dr. Aasif Mohammad Bhat
(Assistant Professor - Contract)

Area of interest: Advanced nano scale devices, Wide band gap materials (III-N) simulation, modelling and fabrication for high power, RF and biosensing applications.

Shahid Mehraj Shah, Faraz, MZA Khan, Majed Hadad	Deep Neural Network based secure-energy efficient power allocation in an Interference Network	Accepted for presentation and publication in fifth International Conference on Computing and Network Communications (CoCoNet'23), Bangalore, India	18/12/2023 to 20/12/2023
Amandeep Singh	Low power Circuit Design Using Dynamic GDI Technique in CNTFET Technology	18th ACM International Symposium on Nanoscale Architectures	20/12/2023
Adil, Asrar, Najam Us Saqib, Shahid Mehraj Shah	Achievable Rates for Finite Alphabet Constellation Over Non-Gaussian Noise Channel	Accepted for presentation and publication in International Conference on 6G Communications Networking and Signal Processing, Singapore. Paper will be presented on Dec 27-30, 2024 in NTU Singapore.	27/12/2023 to 30/12/2023

Sponsored Projects Ongoing / Awarded

Title of the Project	Investigator(s)	Sponsoring Agency	Amount (in INR)
ISEA - II	Prof. A H Mir, Dr. Farida Khurshed	MeiTy	36.06 Lakhs
JKSTIC (DST)	Dr. Farida Khurshed	JK Govt	7.2 Lakhs
JKSTIC (DST)	Dr. Farida Khurshed, Dr. Zamrooda Jabeen, Dr. Mehraj Ahmad Lone	JK Govt	7.1 Lakhs
JKSTIC	Prof. A H Mir	Ministry of science and technology, Department of Science and Technology	7.1 Lakhs
JKSTIC	Prof. A H Mir	Ministry of science and technology, Department of Science and Technology	7.2 Lakhs
Investigation of Non-ideality Factors for a P3HT: PCBM Based Bulk Hetero-junction Organic Solar Cell in Presence of Gold Nanoparticles	Prof. Najeeb ud din	CRG SERB, Department of Science & Technology,	51.14 Lakhs
Design and development of Low memory Discrete Transform for Low Cost IoMT Devices	Dr. Burhan Khurshid (PI), Dr. Mohammad Rafi (Co-PI), Dr. Tawseef Ayub Sheikh (Co-PI)	JKST&IC, DST J&K	4.99 Lakhs
Design and Implementation of 5G MIMO/Array Antenna with Spatial Diversity and Beamforming	Dr. Amit Kumar (PI) No Co-PI	EMEQ Scheme under DST-SERB Approval letter on 1st Dec. 2023	30 Lakhs Approx. (Sanctioned letter not issued yet)
Architectural and Technology-dependent optimization of DSP Filters for FPGA based Image Processing applications	PI: Dr. Gh Rasool Begh Co-PI: Dr. Burhan Khurshid	JK DST	12 Lakhs (Approved but sanctioned amount has not been conveyed yet)
Design and Development of Non-Intrusive Load monitoring framework using Smart Meter Data Analysis	Dr. Shahid Mehraj Shah	J&K Science, Technology and Innovation Council, Dept. of Science & Technology	1.2 Lakhs (Received the approval information, actual budget yet to be allocated.)
Development and Augmentation of the Industry Standard ASM-GaN-HEMT Model for State-of-the-art Integrated Circuit Design	Dr. Sheikh Aamir Ahsan	Startup Research Grant (Early Career Research Award) (Science and Engineering Research Board)	30 Lakhs
A novel method for minimization of false alarms in medical units	Dr Omkar Singh	J&K Science, Technology and Innovation Council, Dept. of Science & Technology	3.3 Lakhs approved as first installment
Investigation of Electrical Parameters in Organic Solar Cells due to Incorporation of Metallic Nano Particles	Prof. Najeeb-Ud- Din	JKST&IC	7.2 Lakhs
Design and Investigation of Materials of Use in PSC to obtain Optimum Performance Parameters.	Dr. Gausia Qazi	JKST&IC	7.3 Lakhs
Architectural & Technology- Dependent Optimization of DSP Filters for FPGA based Image Processing Applications	Dr. Gh. Rasool Beigh	JKST&IC	6.6 Lakhs
Design and Development of Non- Intrusive Load Monitoring Framework using Smart Meter Data Analysis	Dr. Shahid Mehraj Shah	JKST&IC	7.8 Lakhs
A Novel Method for Minimization of False Alarms in Medical Units	Dr. Omkar Singh	JKST&IC	6.6 Lakhs
Development of Tunable Band Gap Perovskite Materials for Photovoltaic Applications	Dr. Brajendra Singh Sengar	JKST&IC	6.6 Lakhs

JUL 2023 - DEC 2023

Details of Patents Applied/Received

Title of the Patent	Inventor(s)	Status	Details
Optimized physical parameter set for a 1550 nm DFB laser source with enhanced modulation characteristics, reduced source linewidth and chirping and suppressed harmonic and inter modulation distortion for CATV frequency band of operation.	Gausia Qazi Hakim Najeeb-ud-din	Granted on 21-10-2023	Patent No: 461319 Application No: 201811015231
Design and Performance investigation of 0.7 mm Pentacene based Organic Thin Film Transistors	Farkhanda Ana Najeeb-ud-din	Granted on 17-11-2023	Patent No: 470215 Application No: 201811011033
Self timed Comparator Based Power Efficient High Speed Analog to Digital Converter	Liyaaqat Nazir, R. N. Mir, and Najeeb-ud-din	Granted on 06-07-2023	Patent No: 400945 Application No: 201611009467
A Knee cap device	Khadim Adil Hussain Mir, Syed Kashif Jeelani Alvi, Burhan Khurshid, Serhaun Jan, Zeenat Mukhtar, Aasif Bashir Bhat.	Applied for	Application No: 2023110074933A

Testing & Consultancy

Title of the Project	Investigator(s)	Consultancy rendered	Amount Earned
Alternative Technological measure for handling of Parcels at Parcel Hub Srinagar	Prof. M. F. Wani, Dr. Shahid Mehraj Shah, Dr. Janib Ul Bashir, Dr. Noor Muhammad, Dr. Ahsan Chishti, Dr. Aabid Bazaz	Postal Services (Mail), Jammu & Kashmir Circle	Actual amount not yet decided.

Purchases Undertaken

Name of the Faculty	Name of the equipment/Item	Quantity	Date of Purchase	Amount of Purchase
Dr. Farida khursheed	Smart Board Panel (ISEA)	01	05/10/2023	Rs. 1,19,999
Dr. Farida khursheed	Laptops (ISEA)	02	16/11/2023	Rs. 1,19,460
Dr. Farida khursheed	Laptop (JKSTIC)	01	12/09/2023	Rs. 86,767
Dr. Farida khursheed	Printer (JKSTIC)	01	08/11/2023	Rs. 24,500
AHMIR.	Panel (Smart board)		05/10/2023	119999
AHMIR.	Laptops		16/11/2023	119460

Jul 2023 - Dec 2023

Conferences, Courses & Trainings Attended / Conducted

Name of the Faculty	Name of the program Attended	Institute/Place	Dates
Dr. Amit Kumar	Fundamental Glossary of Electronics (English-Hindi Kashmiri)	Department of E&IT, University of Kashmir	03/07/2023 to 07/07/2023
Dr. Omkar Singh	Subject Expert in Expert Advisory Committee (EAC) Meeting cum Workshop for the evolution of "Fundamental Glossary of Electronics (English-Hindi Kashmiri)" held by the Commission for Scientific and Technical Terminology (CSTT), Govt of India	Department of E&IT, University of Kashmir	03/07/2023 to 07/07/2023
Dr. Sheikh Aamir Ahsan	IEEE European Solid State Device Research Conference	Lisbon, Portugal	11/09/2023 to 14/09/2023
Dr. Amit Kumar	International Conference on Sustainable Emerging Innovations in Engineering and Technology 2023 (ICSEIET)	ABESEC Ghaziabad, India (But attended in Hybrid Mode)	14/09/2023 to 15/09/2023
Dr. Brajendra Singh Sengar	40th European Photovoltaic Solar Energy Conference and Exhibition (EU PVSEC 2023) organized by WIP Renewable Energies, Sylvesteinstr	Lisbon, Portugal	18/09/2023 to 22/09/2023
Dr. Gausia Qazi	Silicon Photonics Design, Fabrication, Experimentation and Data Analysis.	University of British Columbia (Online)	19/09/2023 to 13/12/2023
Dr. Burhan Khurshid	One week workshop on "VLSI Architectures for Image and Video Processing," organized by IIITD&M, Kancheepuram	Online mode	04/12/2023 to 08/12/2023
Dr. Shahid Mehraj Shah	Fifth International Conference on Computing and Network Communications (CoCoNet'23), Bangalore, India	PES University, Bangalore, India	18/12/2023 to 20/12/2023
Dr. Shahid Mehraj Shah	International Conference on 6G Communications Networking and Signal Processing, Singapore	NTU Singapore.	27/12/2023 to 31/12/2023
Dr. Pankaj Kumar Sharma	27th International Symposium on VLSI Design and Test (VDAT-2023)	BITS Pilani, Pilani Campus	29/09/2023 to 01/10/2023
Dr Omkar Singh	International Conference on Image Processing Theory, Tools & Applications	Paris, France	16/10/2023 to 19/10/2023

Co-Ordinator	Name of the program Conducted	Sponsoring Agency	Dates
Dr. Shahid Mehraj Shah	5G Testbed at IISC (By Prof. Chandra Murthy, IISc Bangalore)	Dept. of ECE	31-07-2023 to 01-08-2023

PhD Degrees Awarded

Name of Scholar	Name of Supervisor	Topic/Area of Research	Status
Suhail Ahmed	Prof. A H Mir	Enhancing Reliability and Security in Software Defined Networks	Awarded
Mursal Ayub Hamdani	Dr. Gausia qazi	Design and analysis of a novel common mirror structure based photonic integrated Michelson interferometer and modulator	Awarded
Ifrah Amin	Dr. Gausia qazi	Numerical investigations of gain enhanced ASE re-injected EDFA with RFA pump actuated spectrum slope gradient tailoring in ultra-dense WDM environment	Awarded

Jul 2023 - Dec 2023

- 9 PhD Thesis are under Submission in the Department.
- A Total of 42 Doctoral Programs are ongoing in the Department.

Future Plans

As we reflect on our journey through the Autumn semester 2023, we are pleased to share our plans envisioned for the future.

Being committed to academic excellence, as part of the course curriculum revision, we hope to introduce new courses that equip our students with industry-relevant skills in advanced semiconductor technologies, circuits, and Communication systems. To supplement the hands-on experience, we plan to conduct some industry-relevant short-term courses in different Departmental specializations for undergrad and grad-level students and research enthusiasts. The Department also plans to establish student and professional society chapters to facilitate seminars and distinguished lectures, especially in the IEEE Electron Devices Society, Circuits and Systems Society, Microwave Theory and Techniques Society, and the Optical Society of America, aimed at giving our students a global perspective.

The Department is actively engaged in research themes in semiconductor devices, circuits, signal processing, and Communication engineering, with several sponsored research projects being undertaken by our faculty members spanning these areas. Along these lines, we aim to increase research collaborations with national and international academic and industrial groups to ensure a qualitative and quantitative increase in our scientific production. We also stand committed to sustainability and green technologies; as such, our long-term goal is to establish interdisciplinary centers of excellence that address global energy and climate-related problems. To give our institute community a flavor for our research, we hope to conduct a research day where our faculty and scholars will showcase their research.

With the inception of new labs—such as the Machine Learning Lab, Advanced Communication Lab, and Communication Control & Learning Lab—our Department is delving into cutting-edge research areas like Artificial Intelligence, Machine Learning, 5G & Beyond, and Cyber-Physical Systems. Plans involve establishing a next-gen Communication system testbed for developing and testing emerging technologies. Collaborations with institutions like IIT Hyderabad, IISER Bhopal, IISc Bangalore, and the University of Avignon in France are expanding our research horizons. Students across all academic levels (BTech, MTech, and PhD) actively contribute to these collaborations, enriching our commitment to innovation and global knowledge exchange. The curriculum of UG and PG programs is constantly being updated to impart the necessary skills, enabling students to work in these cutting-edge areas.

To facilitate a seamless learning experience, we are investing in state-of-the-art infrastructure. New software license bundles are planned for procurement to provide students with a platform to bring theoretical learning into practice. In line with our commitment to align academic learning with industry needs, we are establishing strategic partnerships with organizations such as SCL Chandigarh, Keysight Technologies, Ingain Technologies, and AMPICQ, and we hope to have more such industrial engagements in the future. These collaborations will open up avenues for internships, workshops, and real-world projects, enhancing our students' readiness for the professional world.

As we look ahead, we envision an ECE Department that excels in academic and research pursuits and nurtures individuals ready to face the challenges of a dynamic and evolving technological landscape.

Dr. Sheikh Aamir Ahsan
Assistant Professor

Dr. Shahid Mehraj Shah
