Er. Aamir Ali

Vice President, Alumni Association REC/NIT Srinagar

It was my privilege to join this esteemed Institution in 1984 and graduate in 1988, with a degree in Civil Engineering. These formative years have had a profound impact on my personal and professional development, leaving a lasting legacy in my life. The relationships forged with fellow students, faculty and staff, along with the collective challenges that we encountered, have established a strong bonding that continues to unite us across generations, geographic boundaries and professional disciplines.

After sustained efforts, we have formally registered our Alumni Association and I am honored to serve as Vice President. Our Association is committed to strengthening the ties between Alumni and the Institution, by fostering collaboration, mentorship and the exchange of knowledge. The Alumni Association will serve as a vital platform to leverage the collective strength, expertise and experiences of our diverse Alumni community. We aim to create opportunities for professional growth, lifelong learning and impactful contributions to society.

Our key priorities and initiatives include:

- **Enhancing Alumni-Student Engagement:** Implementing mentorship programs, where experienced Alumni will provide guidance to the students in their academic and professional journeys.
- **Professional Development:** Organizing workshops, webinars and guest lectures to facilitate continuous learning for students and networking opportunities for Alumni.
- **Career Support and Job Placement:** Creating a dedicated career cell to assist Alumni and students with internships, job opportunities and career counselling.
- **Community Outreach and Social Responsibility:** Promoting Alumni involvement in initiatives that contribute to community development, social issues and sustainable progress.
- **Alumni Recognition:** Acknowledging exemplary achievements of our Alumni, through awards, that celebrate their excellence and service.

- **Research and Innovation Collaboration:** Encouraging Alumni participation in collaborative research projects and innovation challenges.
- **Fundraising and Infrastructure Development:** Mobilizing Alumni support for scholarships, infrastructure improvements and new academic programs at NIT Srinagar.

We have been organizing the Global Alumni Meet, which provides a platform for the Alumni worldwide to reconnect, collaborate and share their achievements. We are committed to enhancing these events to foster greater engagements and networking opportunities. We are also developing a comprehensive Alumni database and digital platforms, so as to enable continuous communication and collaboration within our global community.

We encourage all Alumni to actively participate, whether by joining committees, contributing to mentorship programs, sharing their expertise, or supporting institutional initiatives, as their involvement is essential to strengthen our network and advance the legacy and reputation of REC/NIT Srinagar.

We are striving to build a vibrant and inclusive Alumni community that not only honors our distinguished heritage as REC Srinagar but also contributes meaningfully to the future growth and success of our Institution and to uphold the legacy and vision of NIT Srinagar, guided by our motto:

“Lead me from Darkness to Light.”

Warm regards,

Er. Aamir Ali

Vice President

Alumni Association, REC/NIT Srinagar
