Subject: *Rajya Sabha Admitted unstarred Question Dy. No. U891 for an answer on 21.03.2025 on Uses of Artificial Intelligence (AI) in various sectors in India.*

Sir,

This has reference to an email dated Tue, 11 Mar 2025, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S. No.	Information Sought	Reply
1.	Whether the Government has evaluated the positive and negative impact on extensive use of Artificial Intelligence (AI) in various sectors in India	The government has evaluated the impact of AI across various sectors through industry consultations, policy reviews, and international collaborations. The Ministry of Electronics and Information Technology (MeitY) and other regulatory bodies have identified both the benefits and challenges of AI adoption.
2.	If so, the details thereof;	Positive Impacts: - Enhanced Efficiency: AI has improved productivity in sectors such as healthcare, agriculture, and finance. - Innovation & Economic Growth: AI-driven solutions contribute to new business models, services, and economic expansion. Negative Impacts: - Financial Stability Risks: The Reserve Bank of India (RBI) has warned about AI-driven market concentration and systemic risks in financial services. - Data Privacy Concerns: The Ministry of Finance has restricted government employees from using AI tools like ChatGPT and DeepSeek to protect sensitive information.
3.	Action contemplated to mitigate the negative impact and to prevent its misuse by a controlled mechanism;	1. Establishment of AI Safety Institute: - MeitY has launched the IndiaAI Safety Institute to set AI safety standards, detect risks, and align AI development with India's socio-cultural needs. 2. AI Readiness Assessment with UNESCO: - The Government is working with UNESCO to develop AI Readiness Assessment Methodology to ensure responsible AI

Subject: *Rajya Sabha Provisionally Admitted Unstarred Parliament Question Diary No. U4236 due for answer on 20.03.2025 regarding "Support Mechanisms for Women Scientists Facing Career Breaks"*

Sir,

This has reference to email dated Wed, 12 Mar, 2025, received from NITs Division of MoE regarding inputs on RSUQ-U4236 for 20.03.2025. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
1. Whether the Government has implemented schemes or policies to support women scientists facing a "break-in-career" due to family responsibilities, maternity, or other factors; if yes, the details thereof, including eligibility criteria and financial assistance provided;	The female faculty of NIT Srinagar are granted 180 days Maternity Leave and 730 days Child Care Leave as per CCS (Leave) Rules, 1972 enabling them to balance work and family. During first 365 days of Child Care Leave and Maternity Leave, the employees get full Leave Salary. However, during next 365 days of Child Care Leave, the employees are paid 80% of Leave Salary.
2. The state-wise details of beneficiaries under these initiatives for the past five years, along with the total funds allocated and utilized;	Not applicable
3. Whether the Government has introduced any mentorship programs, research fellowships, or flexible work arrangements to encourage the re-entry of women scientists into research and academia;	Not applicable

Subject: *Inputs on Lok Sabha Provisionally Admitted Starred Parliament Question Diary No. S8301 due for answer on 19.03.2025 regarding "Development of Research and Professional Programme".*

Sir,

This has reference to email dated Tue, 10 Mar, 2025, received from NITs Division of MoE regarding inputs on LSSQ-S8301 for 19.03.2025. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
a) whether it is a fact that Government has taken up initiatives for developing an inclusive society and empower different strata of the society through S&T interventions? (b) if so, the details thereof;	The Government has taken up various initiatives to develop an inclusive society and empower different strata through Science and Technology (S&T) interventions such as: Science for Equity, Empowerment, and Development (SEED): This program, under the Department of Science and Technology (DST), focuses on using S&T to address the challenges faced by marginalized communities, including women, Scheduled Castes (SCs), Scheduled Tribes (STs), and differently-abled individuals. Technology Interventions for Less Privileged Sections: The government promotes the development and deployment of affordable technologies for rural areas and underserved populations. Digital India Program: This initiative aims to bridge the digital divide and ensure that all citizens have access to digital technologies and services. Skill India Mission: This mission focuses on providing skill development and vocational training to young people, including those from marginalized communities.
(c) the steps taken by Government to develop research and professional programs for marginalized and backward classes, in order to provide them with high levels of education and skilled employment possibilities; and	Some of the steps taken by Government to develop research and professional programs for marginalized and backward classes are given hereunder: Scholarship and Fellowship Programs:

NATIONAL INSTITUTE OF TECHNOLOGY SRINAGAR

(An autonomous Institute of National Importance under the aegis of Ministry of Education, Govt. of India)

हजरतबल, श्रीनगर, जम्मू-कश्मीर, 190006, भारत

Hazratbal, Srinagar Jammu and Kashmir, 190006, INDIA

(d) if so, the details thereof?	The government offers various scholarship and fellowship programs to support students from SC/ST and other backward classes in pursuing higher education and research in S&T fields. Reservation Policies: The government implements reservation policies in educational institutions and government jobs to ensure adequate representation of SC/ST and other backward classes. Skill development programs: Many skill development programs are created with specialized focus on marginalized and backward classes. Increased access to online educational resources: The government is also working to increase access to online educational resources, which can be particularly beneficial for students in remote or underserved areas.

Subject: Lok Sabha Unstarred Question No. 2590 for 17.03.2025 regarding 'Integrate Technology with Education'

Sir,

This has reference to email dated Tue, 11 Mar, 2025, received from NITs Division of MoE regarding inputs on LSUQ-2590 for 17.03.2025. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) the number of schools and colleges that have digital classrooms across the country following the initiative of the Government to integrate technology with education;	The information regarding number of schools and colleges that have digital classrooms across the country is not available with the Institute. However, NIT Srinagar follows initiative of the Government to integrate technology with education. The Institute has digital classrooms which includes interactive whiteboards/smart displays, podium, projectors, and recording facilities etc. The institute also provides high-speed internet access across the campus, including hostels and the library, which is essential for digital learning.
(b) whether the Government has any data regarding the availability of digital education devices (mobile phones, tablets, laptops, etc.) with school children on national level and if so, the details thereof;	The institute does not maintain specific records regarding student ownership of digital educational devices. However, it is generally recognized that students typically possess such devices.
(c) whether the Government has any plan to provide digital devices to those students who don't have such devices towards the aim of the Government to provide broadband connectivity for rural schools and if so, the details thereof; and	Not applicable
(d) whether the Government tracks the percentage of improvement in student performance and vocational training enrolments as a result of these digital initiatives under the National Education Policy (NEP) and if so, the details thereof and if not, the reasons therefor?	There have been various improvements in learning by integrating technology with education such as: Enhanced Access to Information: The internet provides a vast repository of knowledge, allowing students to explore topics beyond traditional textbooks. Increased Engagement and Motivation:

राष्ट्रीय प्रौद्योगिकी संस्थान श्रीनगर
NATIONAL INSTITUTE OF TECHNOLOGY SRINAGAR

	Interactive tools, multimedia resources, and gamified learning make lessons more engaging and enjoyable. Personalized Learning: Technology enables tailored learning experiences that cater to individual student needs and learning styles. Improved Collaboration and Communication: Digital platforms facilitate communication and collaboration among students and teachers, both inside and outside the classroom. Development of Digital Literacy Skills: Integrating technology prepares students with essential digital skills for success in the 21st-century workforce. Greater Accessibility and Inclusivity: Assistive technologies and digital resources make education more accessible to students with diverse learning needs. The effects of the above improvements in education reflects in student's performance such as: • Overall Student Output • Better Academic Performances • Increase in Vocational Training Enrolments • Increase in Higher Education Enrolment By analysing the above parameters, the Government can track the percentage of improvement in student performance in education.

Subject: Lok Sabha Provisionally Admitted Question Dy. No. 8419 to be answered on 13.03.2025 reg
"AI Research and Innovation Enhancement" -reg

Sir,

This has reference to an email dated Tue, 11 Mar 2025, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S. No.	Information Sought	Reply
1.	The steps taken by the Government to promote and enhance AI research and innovation across the country;	The Government of India has implemented several initiatives to promote and enhance artificial intelligence (AI) research and innovation across the country. These efforts are complemented by the identification of priority areas to focus AI advancements. Steps Taken to Promote AI Research and Innovation • National Mission on Interdisciplinary Cyber-Physical Systems (NM-ICPS) – Established 25 Technology Innovation Hubs for AI and emerging tech research. • INDIAai – National AI Portal – Centralized platform for AI-related developments, resources, and collaborations. • BharatGen Initiative – Indigenous, multilingual AI model to reduce dependence on foreign AI technologies. • IndiaAI Mission – \$1.25 billion initiative to build AI infrastructure, support startups, and enhance AI education.
2.	Whether the Government has identified any priority areas for AI research and innovation;	Yes, the government has identified specific priority areas for AI research and innovation. The details are given below;
3.	If so, the names of these areas, along with the rationale for their selection;	The Government of India has pinpointed several sectors as priorities for AI research and innovation: • Healthcare: Developing AI solutions to improve diagnostics, personalized medicine, and patient care. • Agriculture: Implementing AI for precision farming, crop monitoring, and yield prediction to enhance productivity.

Subject: *Provisionally Admitted Rajya Sabha Starred Question Diary No. 1367 to be answered on 12/03/2025 regarding "Mentorship and Collaboration Between Established and Newly Formed Institutions" -reg*

Sir,

This has reference to an email dated Mar 5, 2025, received from **NITs Division of MoE** regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S. No.	Information Sought	Reply
1.	Whether the Government has initiated mentorship programs for older to guide newer IITs/NITs/IISERs, and if so, the details;	Yes, the Government has initiated mentorship programs to support the development of newly established Indian Institutes of Technology (IITs), National Institutes of Technology (NITs), and Indian Institutes of Science Education and Research (IISERs). - Established IITs have been designated as mentor institutes for newly established IITs to provide guidance in academic curriculum development, faculty recruitment, and infrastructure planning. - Similarly, NITs and IISERs follow a mentorship model where older institutions assist newer ones in research collaborations, faculty training, and governance frameworks. - The Ministry of Education, through initiatives such as the Institute of Eminence (IoE) scheme and HEFA (Higher Education Financing Agency), facilitates resource sharing and infrastructure development.
2.	Whether reputed Central Universities are encouraged to mentor newly established Central/State Universities;	Yes, the Government encourages reputed Central Universities to mentor newly established Central and State Universities. - The Ek Bharat Shreshtha Bharat program fosters institutional partnerships for knowledge exchange. - The National Education Policy (NEP) 2020 emphasizes interdisciplinary collaboration and resource-sharing between institutions of varying capacities. - The UGC (University Grants Commission) and the MHRD (now MoE) have formulated policies where established Central Universities extend academic and administrative support to newer universities. - Collaborative programs such as faculty exchange, joint research projects, and infrastructure sharing are promoted under various government schemes.
3.	The steps taken to foster knowledge sharing, resource pooling, and collaborative projects among these institutions?	The Government has taken multiple steps to promote collaboration among higher education institutions, including: HECI (Higher Education Commission of India): A restructured regulatory body to enhance coordination between institutions. Digital Initiatives: Platforms like SWAYAM, National Digital Library, and Virtual Labs facilitate shared learning resources. Research Collaborations: Schemes like IMPRESS, SPARC, STRIDE, and PMRF encourage inter-institutional research projects.

Subject: *Lok Sabha Provisionally Admitted Unstarred Question Dy. No. 9095 for 16.12.2024-
inputs regarding.*

Sir,

This has reference to email dated Tue, 10 Dec, 2024, received from NITs **Division of MoE** regarding inputs on LSUQ-9095 for 16.12.2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether the Government is aware that there is a significant shortage of teachers in higher and technical education institutions across the country including Tamil Nadu, if so, the details thereof;	Fresh faculty positions have been sanctioned in the Institute in the year 2024 on the basis of student strength and the recruitment process shall be initiated soon which shall address the shortage of teaching staff in the Institute.
(b) the current teacher-to-student ratio in Higher and Technical Education Institutions and the manner in which it compare to global standards;	The Student-Faculty ratio in NIT Srinagar shall be 12:1 after filling up the vacant faculty positions including 144 newly created positions in the year 2024.
(c) the details of the data on vacant teaching posts in central universities, IITs, NITs, and other technical institutions, State-wise and institution-wise;	191 faculty positions are currently vacant in the Institute which includes 144 newly created faculty positions in the year 2024. The recruitment process for filling up vacancies shall be initiated once the regular Director joins the Institute.
(d) the manner in which the shortage of teachers has affected the quality of education and research in higher and technical education institutions;	The shortage of teachers definitely has an impact on the quality of education and research. However, the Institute compensates the shortage of faculty staff by engaging Temporary Faculty / Guest Faculty which helps to minimize the impact on quality of education and research.
(e) whether the teacher shortage has impacted the accreditation or ranking of institutions at the national or international level, if so, the details thereof, and	The shortage of teaching staff has an impact on the accreditation / ranking of institutions both at the national or international level as Student Faculty Ratio is a major parameter in ranking. However, engagement of Temporary Faculty minimizes the impact on ranking of Institutes.

Subject: Lok Sabha provisionally Admitted Unstarred Question Dy. No. 8922 for 16.12.2024-for
inputs regarding

Sir,

This has reference to email dated Tue, 10 Dec, 2024, received from NITs Division of MoE regarding inputs on LSUQ-8922 for 16.12.2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) Whether any IITs, IISc, IISERS, IIMs, NITS, IESTS, ISI, IIITs, or other Government funded institutions have conducted recruitment for Assistant Professors, Associate Professors, and Professors for Persons with Disabilities (PWD)-General categories as per the Right of Person with Disability (RPwD) Act, 2016, and if so, the details of the applications received and selected candidates;	One Faculty Position has been filled in Institute under PwD-General category amongst 02 applications received during the last recruitment drive.
(b) whether any results under PwD-General have been undeclared for over a year, if so, the expected date of declaring results and the reasons for the delay;	NIT Srinagar does not have any undeclared result for faculty / non-faculty recruitment under PwD-General category.
(c) whether institutions have submitted roster-wise faculty vacancies under the disability category to the Government;	NIT Srinagar floats advertisement notices wherein reservation roster is followed in letter and spirit.
(d) the institutions which followed the Government specified qualifications and provide equal opportunity to PwD candidates;	NIT Srinagar follows the norms set by the Government with respect to qualification and reservation which ensures equal opportunity to PwD candidates.
(e) whether the Government has taken any action to ensure equal opportunities for PwD candidates without age discrimination?	The provisions of Rights of Persons with Disabilities Act, 2016 and other norms regarding reservation set by the Government provides reservation to PwD candidates and ensures equal opportunities for PwD candidates including age relaxation.

Subject: *Provisionally Admitted Rajya Sabha Starred/Unstarred Question Diary No. S3637 for 11.12.2024 regarding Security in universities.*

Sir,

This has reference to an email dated Mon, 2 Dec 2024, received from **NITs Division of MoE** regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S. No.	Information Sought	Reply
1.	Given the increasing instances of mob violence in university campuses, what steps are being taken to keep university students safe.	Several steps have been taken at NIT Srinagar for the safety of the students, like CCTV monitoring, 24x7 security monitoring, etc.
2.	Whether CCTV and other security installations are being installed.	The institute has implemented a robust CCTV surveillance system, with cameras strategically placed throughout the campus to monitor activities 24/7.
3.	Whether women students are provided with hygienic facilities and security in dorms	The institute prioritizes the health and well-being of its students by maintaining high standards of hygiene in hostels and common areas. To cater to the needs of female students, vending machines have been installed in girls' hostels and washrooms across different departments. All dormitories at NIT Srinagar, for both male and female students, are equipped with 24x7 security personnel. These measures are in place to ensure a safe and secure environment for all residents.
4.	Whether transport facilities to and from campuses are regular, safe and in good condition.	As NIT Srinagar is a fully residential campus, there is no regular need for transport facilities. However, the institute does provide buses for students whenever required, ensuring convenience and support for specific needs.
5.	Whether hostel accommodation for male and female students is manned by 24-hour security personnel. If yes, the details thereof. If not, the reasons therefore.	All hostels on campus are guarded by security personnel who work in shifts to ensure the safety of residents at all times. The boy's hostels, which accommodate approximately 2,400 students, are secured by 11 security posts manned by 33 security personnel working in shifts around the clock. Similarly, the girls' hostel is monitored by a dedicated security post staffed by 10 female security personnel, ensuring 24x7 safety.

Subject: *Rajya Sabha Provisionally Admitted Question Dy. No. U2737 for answer on 06.12.2024 on "AI and Emerging Technologies group"*

Sir,

This has reference to email dated Tue, 26 Nov, 2024, received from **NITs Division of MoE** regarding inputs on RSQ-U2737 for 06.12.2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
a. Whether government taking any steps to ensure that AI development in India is aligned with global ethical standards, how is the addressing concerns around bias and discrimination in AI algorithms?	Not applicable
b. How is government promoting research and development in emerging technologies like quantum computing, blockchain, augmented reality, what are the potential applications of these technologies in various sectors?	The National Education Policy (NEP) 2020 is a key driver for experiential learning, thus, emerging technologies like quantum computing, blockchain, augmented reality in the national curriculum can equip students with knowledge and skills necessary for addressing global challenges which will also result in research and development in the said technologies. The potential applications of these technologies can be: • Creating immersive learning experiences for students. • Designing advanced materials with superior properties. • Developing unbreakable encryption techniques. • Enabling secure and transparent financial transactions. • Simulating complex molecular interactions to accelerate drug development. • Solving complex optimization problems. • Tracking the origin and movement of goods to reduce fraud and counterfeiting.

	• Assisting in surgical procedures and medical training. • Streamlining government processes and reducing corruption.
c. What initiatives has the government taken to develop AI-powered solutions for social good, such as healthcare, education, environmental sustainability, how is it ensuring that these solutions are accessible to marginalized communities?	Following are some AI-powered solutions for social good such as education: • Personalized learning: AI-powered platforms are being used to tailor education to individual student needs, improving learning outcomes. • Language translation: AI-based language translation tools are being developed to make education accessible to students from diverse linguistic backgrounds. The government is also taking several steps to ensure that AI-powered solutions are accessible to marginalized communities: • Digital literacy: The government is promoting digital literacy programs to equip marginalized communities with the skills to use AI-powered tools. • Infrastructure: The government is investing in digital infrastructure, such as broadband connectivity, to improve access to AI-powered services. • Public-private partnerships: The government is collaborating with private sector companies to develop affordable and accessible AI solutions.

Subject: *Rajya Sabha Provisionally admitted Starred Question Dy.No. S3250 for 05.12.2024 regarding "Scientific Literacy and Public Engagement".*

Sir,

This has reference to email dated Mon, 25 Nov, 2024, received from NITs Division of MoE regarding inputs on RSSQ3250 for 05.12.2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
a) What initiatives are being undertaken to enhance scientific literacy among school and college students?	National Education Policy (NEP) 2020 emphasizes on STEM education, critical thinking, and experiential learning to foster scientific temper and enhance scientific literacy among students
b) Are there plans to include emerging technologies like AI, blockchain, and genomics in the national curriculum to prepare future generations for new challenges?	The National Education Policy (NEP) 2020 is a key driver for experiential learning, thus, emerging technologies like AI, blockchain, and genomics in the national curriculum can equip students with knowledge and skills necessary for addressing global challenges.
c) How is the government ensuring public participation in science-related policy making, especially on issues like climate change, energy, and health?	Academic Institutions often organize public lectures, seminars, and workshops to engage the public in scientific discussions which creates a more inclusive and participatory approach, ensuring that the voices of the public are heard and considered in shaping the Country's scientific future
d) Are there plans to collaborate with media and digital platforms to promote accurate and accessible scientific information?	By fostering collaboration with media and digital platforms, it can be ensured that accurate and accessible scientific information reaches a wider audience, thus, promoting scientific literacy and informed decision-making. The government has taken various initiatives in this regard and some of the key initiatives are hereunder: India Science Channel: This 24/7 science channel, launched by the Department of Science and Technology, aims to disseminate scientific knowledge through engaging programs.

Subject: *Inputs on Admitted Rajya Sabha Unstarred Question No. 1091 to be answered on 04.12.2024 regarding "Funds for higher education institutions"*

Sir,

This has reference to email dated Thu, 28 Nov, 2024, received from NITs Division of MoE regarding inputs on RSUQ-1091 for 04.12.2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) the list of Union Government-funded higher education institutions where student union elections have not been conducted;	NIT Srinagar does not have any Student Union
(b) the institutions where student union elections have not been conducted, the reasons for the non-conductance of elections; and	Not applicable
(c) what measures has the Ministry implemented to ensure that student union elections are conducted in all higher education institutions funded by the Union Government?	Not applicable

With regards,

Sd/-

Subject: Inputs/Comments for admitted Lok Sabha Unstarred Question No. 3273 regarding
Campus Recruitment to be answered on 12.08.2024 - reg.

Sir,

This has reference to email dated Wed, 07 Aug, 2024, received from NITs Division of MoE regarding above cited subject. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether it is a fact that only 7% of colleges in the country achieve cent percent campus placement;	A significant factor that affects the overall placement percentage is the diverse career paths chosen by our students. While a portion of students opt for campus placements, others pursue higher studies, venture into entrepreneurship, or prepare for state and central public sector unit (PSU) jobs. To provide a clearer picture, let's look at the placement data of NIT Srinagar over the past three academic years: • In 2021, our placement rate was 75%. • In 2022, it increased to 78%. • In 2023, we achieved an 83% placement rate. These figures reflect the commitment of our institution to improve placement outcomes continuously. However, it is important to note that many of our students prioritize preparing for competitive exams for government jobs or decide to continue their education, which naturally impacts the overall placement statistics.
(b) whether it is also a fact that the top challenges for a significant percentage of recruiters are the skill gap and inability to find the right talent;	As far as our past experience is concerned & the feedback received from the recruiters the skill gap and the inability to find the right talent are significant challenges for a large percentage of them. Many employers find that some of the graduates lack the necessary skills and competencies required for the job market.
(c) whether it is also true that the skill gap and lack of preparation are major challenges in campus recruitment; and	At NIT Srinagar, we recognize that the skill gap has always been a significant challenge in campus recruitment. This gap is largely due to the continuous advancements and rapid changes in technology and industrial practices. As new developments emerge daily, particularly with the integration of artificial intelligence and other cutting-edge technologies, the requirements and expectations of the industry evolve accordingly. However, lack of preparation is not concern and our students are always updating the things accordingly & with course.

Hazratbal, Srinagar Jammu and Kashmir, 190006, INDIA

(d) if so, the steps proposed to be taken by the Government to ensure maximum percentage of campus recruitment?	At NIT Srinagar, we are aligned with the government's initiatives to enhance campus recruitment rates and are actively implementing various measures to support this goal. The steps proposed by the government and the corresponding actions taken by NIT Srinagar include: 1. Curriculum Enhancement: - Government Initiative: Updating and aligning the curriculum with current industry standards. - NIT Srinagar Action: We have recently revised our syllabus to include the latest technological advancements and industry trends, ensuring our students are well-equipped with relevant skills. The syllabus will be implemented from admission batch of 2023 2. Industry Collaboration: - Government Initiative: Promoting collaborations between educational institutions and industry leaders. - NIT Srinagar Action: We have established partnerships & MOU with leading institutions & companies to provide our students with internships, workshops, and real-world project opportunities. This exposure helps students gain practical experience and enhances their employability. 3. Skill Development Programs: - Government Initiative: Implementing skill development programs to bridge the skill gap. - NIT Srinagar Action: We offer various training programs, soft skills workshops, and technical boot camps, employability tests to equip our students with the necessary skills demanded by the industry through 3rd party organizations 4. Placement Drives and Career Services: At NIT Srinagar, placement drives and career services have been a cornerstone of our student support system for more than past two decades. These initiatives have played a pivotal role in helping our students secure placements across various parts of India and even internationally. Our dedicated career services team organizes regular placement drives, bringing a diverse range of companies to our campus. We offer comprehensive support including resume building, interview preparation, career counselling, and soft skills workshops. This holistic approach ensures our students are well-prepared and confident, significantly enhancing their employability. 5. Encouraging Entrepreneurship: - Government Initiative: Supporting students who aspire to start their own businesses. - NIT Srinagar Action: We have an active The Innovation, Incubation & Entrepreneur development centre that encourages and supports students in their

	entrepreneurial ventures through mentorship programs, incubation centers, and startup funding opportunities. Outcome: These concerted efforts have shown positive outcomes as shown in first page. - In 2021, our placement rate was 75%. - In 2022, it increased to 78%. - In 2023, we achieved an 83% placement rate. In conclusion, NIT Srinagar is committed to implementing these measures to ensure that our students are well-prepared and highly employable, thereby maximizing campus recruitment percentages.

Subject: Inputs on LSUSQ 7208: “Step taken by Government to address the issue of Brain Drain”
to be answered on 12 August 2024

Sir,

This has reference to email dated Mon, 05 Aug, 2024, received from NITs Division of MoE regarding LSUSQ 7208: “Step taken by Government to address the issue of Brain Drain” to be answered on 12 August 2024. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether the issue of brain drain is increasing in the country;	Data not available with the Institute
(b) if so, the details thereof;	Not Applicable
(c) whether the Government has taken any steps to get rid of this issue in the future;	The Country is developing at a good rate, the employment opportunities with better return/remuneration have increased manifold. The Government has prioritized the establishment of advanced industries as per the global market demand like FABS for Semiconductor Micro-Chips etc in the Country. These initiatives are expected to reverse the brain drain by attracting Indian nationals who have been working in the foreign countries.
(d) if so, the details thereof;	
(e) whether brain drain leads to shortage of intellectual caliber in the country; and	The issue of brain drain may lead to shortage of intellectual caliber in the Country. The Government in addition to measures mentioned above strives to better the quality of technical/professional institutions in the Country so that foreign students are attracted to study in India as envisaged in NEP-2020.
(f) if so, the steps taken by the Government to improve this scenario?

Subject: Lok Sabha Unstarred Question No. 3346 for reply on 12/08/2024 regarding "IIM Bangalore" - reg.

Sir,

This has reference to email dated Wed, 07 Aug, 2024, received from NITs Division of MoE regarding above cited subject. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether the Government is aware of the complaint made by IIM, Bangalore faculty regarding the caste-based discrimination prevalent in IIM, Bangalore;	Not Applicable
(b) if so, the measures taken by the Government in this regard; and	Not Applicable
(c) whether the Government has evolved any mechanism to prevent caste-based discrimination in educational institutions?	To prevent caste-based discrimination in NIT Srinagar, following measures are taken: • Reservation system is followed in letter and spirit. • SC, ST & OBC Cell has been constituted in the Institute for welfare measures of SC, ST & OBC employees and students of the Institute which is mandated to examine and resolve the problems being faced by the SC, ST & OBC category students and staff • Anti-Ragging squads are established to prevent ragging which can also address caste-based harassment • Internal Complaints Committees (ICCs) handle complaints of sexual harassment, which can sometimes overlap with caste-based discrimination. • Interviews for faculty positions are conducted in separate slots in respect of OBC candidates with relaxed norms. • Interviews for faculty positions are conducted in presence of SC, ST & OBC observers.

Subject: Inputs on Lok Sabha Unstarred Question No. 3227 to be answered on 12.08.2024 regarding "STEM Education".

Sir,

This has reference to email dated Thu, 08 Aug, 2024, received from NITs Division of MoE regarding inputs on Lok Sabha Unstarred Question No. 3227 to be answered on 12.08.2024 regarding "STEM Education". In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether the Country's achievements in pilot representation, STEM Education and financial inclusion contributed to its recognition as a global leader in gender equality;	Yes
(b) if so, the details thereof; and	The Country has implemented several schemes to promote gender equality in education. These initiatives focus on various aspects such as increasing female enrollment, providing scholarships, and creating a conducive learning environment for girls. Some of the key schemes are detailed hereunder: 1. Beti Bachao, Beti Padhao (BBBP): This program aims to improve the child sex ratio, prevent gender-biased sex selective elimination, and ensure survival, protection, and education of the girl child. 2. Kasturba Gandhi Balika Vidyalayas (KGBVs): These residential schools provide education to girls from disadvantaged sections of society. 3. Sukanya Samriddhi Yojana (SSY): This scheme encourages savings for the education and marriage of girl children. 4. Rashtriya Madhyamik Shiksha Abhiyan (RMSA): This scheme aims to improve the quality of secondary education, with a focus on girls' education. 5. Sarva Shiksha Abhiyan (SSA): This universalization of elementary education program has a strong focus on girls' education. 6. Mahila Samakhyas: This program empowers women through education and skill development.

Subject: *Rajya Sabha Provisionally Admitted Question Dy. No. U1426 for answer on 09.08.2024 on Use of Artificial Intelligence (AI) in various sectors in India*

Sir,

This has reference to an email dated Thu, Aug 1, 2024, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S. No.	Information Sought	Reply
1.	Whether the Government has evaluated the positive and negative impact on the extensive use of Artificial Intelligence (AI) in various sectors in India	Yes , the Indian government is cognizant of the potential impacts of AI. Various government bodies, think tanks, and academic institutions have conducted studies and assessments to understand these implications.
2.	if so, the details thereof;	Positive Impacts: Increased efficiency, improved decision-making, economic growth, job creation, healthcare advancements, agricultural productivity, and national security enhancements are some of the anticipated benefits. Negative Impacts: Job displacement, privacy concerns, ethical dilemmas, potential biases in AI systems, and the risk of misuse for malicious purposes are among the identified challenges.
3.	Action contemplated to mitigate the negative impact and to prevent its misuse by a controlled mechanism	• India's AI Strategy: The government has outlined a National AI Strategy, which aims to position India as a global leader in AI. This strategy includes initiatives to address ethical concerns, data privacy, and safety. • Regulatory Framework: The government is developing a comprehensive regulatory framework for AI, focusing on areas like data protection, liability, and accountability. • Skill Development: Investments are being made in AI education and skill development to prepare the workforce for the AI era. • Ethical Guidelines: The government is promoting ethical guidelines for AI development and deployment to ensure responsible AI practices. • International Collaboration: India is actively participating in global discussions on AI governance and safety to shape international norms.

Subject: *Rajya Sabha Admitted Question Dy. No. U3035 for answer on 09.08.2024 on AI*
Sir,

This has reference to an email dated Wed, Jul 31, 2024, received from **NITs Division of MoE** regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S.No.	Information Sought	Reply
	The data on adoption rate of Artificial Intelligence (AI) technologies in various sectors, Year wise	Not Applicable
	The initiatives taken by the Ministry to promote AI adoption across industries, provide details thereof	The Indian government, primarily through the Ministry of Electronics and Information Technology (MeitY), Ministry of Education (MoE) and NITI Aayog, has been actively promoting AI adoption across various industries. Some key initiatives include: • AI for India: This flagship program aims to position India as a global leader in AI by fostering innovation, developing talent, and creating an ethical AI ecosystem. • AI for Industry: The NSAI outlines specific strategies for AI adoption in sectors like agriculture, healthcare, education, and more. • Digital India Program: While broader in scope, it provides the digital infrastructure necessary for AI adoption. • Start-up India Initiative: Fostering an ecosystem for AI startups through various incentives and support programs. • AI for All: This initiative focuses on creating awareness and building capacity in AI among various stakeholders.
	The budget allocated and spent on AI research and development in the current fiscal year	Not Available
	The challenges faced in AI adoption and the measures taken to overcome them?	The adoption of AI, while promising, is fraught with challenges. The most common ones and the strategies to overcome them are: Challenges • Data Quality and Availability: AI models are as good as the data they are trained on. Insufficient, biased, or low-quality data can lead to inaccurate results. • Lack of AI Talent: A shortage of skilled professionals hinders AI development and implementation.

Subject: Inputs for Admitted Rajya Sabha Unstarred Question No. 1790 (attached) to be answered on 07.08.2024 regarding "Impact of Artificial Intelligence on Higher Education"

Sir,

This has reference to email dated Mon, 05 Aug, 2024, received from NITs Division of MoE regarding above cited subject. In this regard, required information pertaining to NIT Srinagar is as under:

Information sought	Reply
(a) whether Government has made attempts to address the concerns of increasing involvement of AI-based softwares like ChatGPT in Higher Education (b) if so, the details thereof; and, if not, the reasons thereof and	While there isn't a specific, direct Government intervention targeting AI-based tools like ChatGPT in Higher Education yet, the Government's approach to AI and education is evolving. Key Government Initiatives are hereunder: 1. National Education Policy (NEP) 2020: This policy emphasizes the integration of technology, including AI, into the education system. The goal is to equip students with the skills needed for the digital age. 2. National Digital Education Architecture (NDEA): This initiative aims to provide digital infrastructure and digital content to all educational institutions. While primarily focused on infrastructure, it indirectly supports the integration of AI tools in education. 3. National Strategy for Artificial Intelligence (NSAI): While focused on broader AI development, the NSAI recognizes education as a key area for AI application. It envisions AI as a tool for personalized learning, intelligent tutoring systems, and more. 4. Digital India: This larger government initiative promotes digital literacy and access to technology. It creates a conducive environment for AI integration in various sectors, including education.
(c) whether there is a need for a policy framework to regulate use of Artificial Intelligence in Education sector?	The rapid advancement and increasing adoption of AI tools like ChatGPT have introduced both immense potential and significant challenges in education. A robust policy framework is needed to harness the benefits of AI while mitigating its risks.

1.	The measures taken / being taken by the Government to promote higher education among women in rural areas	The Indian government has implemented several initiatives to encourage higher education among women in rural areas. These efforts aim to empower women, reduce gender disparities, and contribute to overall rural development. Here are some key measures: Scholarships and Financial Assistance - Post-Matric Scholarships: These scholarships cover tuition fees, hostel charges, and other expenses for girls from SC, ST, and minority communities. - Merit-cum-Means Scholarships: Provided to meritorious students from economically weaker sections, including rural areas. - National Scholarship Portal: A centralized platform to provide information about various scholarships. Institutional Support - Kasturba Gandhi Balika Vidyalayas (KGBVs): These residential schools provide free education to girls from class VI to XII, with a focus on rural areas. - Mahila Vikas Nigams: State-level corporations that promote women's empowerment through various schemes, including education and skill development. - Establishment of Women's Colleges: Increasing the number of women's colleges in rural areas to provide accessible higher education. Awareness and Capacity Building - Beti Bachao, Beti Padhao: A flagship program to improve the child sex ratio and promote girls' education. - Women's Development Corporations: These organizations work at the grassroots level to create awareness about the importance of education and provide support to women.

Subject: *Rajya sabha Provisionally Admitted Unstarred Question Dy. No. 1708 to be answered on 02.08.2024 on "Artificial Intelligence"- regarding*

Sir,

This has reference to an email dated Wednesday, July 24, 2024, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S.No.	Information Sought	Reply
1.	Whether the Government is aware that the future workforce is equipped with the knowledge in the area of Artificial Intelligence that is imperative for the growth of the country?	Yes, the government is aware of the need to equip the future workforce with AI knowledge for the country's growth. The goal of programs like Intel and CBSE's AI for All initiative and MeitY and NASSCOM's Future Skills PRIME program is to include AI education into professional training and educational settings. Faculty development and AI skill upgrading are offered by AICTE's ATAL Academies and the Skill India Mission. Advanced AI research and teaching are the main foci of centres of excellence at universities like IITs and IISc. Practical AI courses and certifications are made available through partnerships with major players in the sector, such as Google and IBM. Free online AI courses are offered by platforms like Swayam give India access to world-class knowledge.
2.	The details of the funds allocated, released and utilized under various schemes for promoting Artificial Intelligence during the last three years, year-wise, State/UT-wise?	Not applicable
3.	The steps taken by the Government to impart the knowledge of Artificial Intelligence to the youth of the country?	Artificial Intelligence, Machine Learning, and Deep Learning are among the specialist courses that the Department of Computer Science and Engineering (CSE) at NIT Srinagar has added to the B.Tech, M.Tech, and Ph.D. curricula to improve AI education. In addition to offering academic training, the department gives students practical experience in hands-on labs on AI. These lab classes also foster creativity and research. Through mentoring, the department's staff and experts encourage students to engage on projects that advance their practical AI knowledge and skills.

Subject: *Rajya Sabha Admitted Question Dy. No. s2644 for answer on 02.08.2024 on Government Plans for AI adoption and Development in Our Country*

Sir,

This has reference to an email dated Thu, Jul 25, 2024, received from NITs **Division of MoE** regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S.No.	Information Sought	Reply
1.	Whether the government is considering encouraging public-private participation through transparent schemes to encourage AI adoption in our country, and if so, the details thereof;	Yes, the government is promoting public-private participation in AI through transparent schemes. Important programs include funding for collaborative AI projects, Public-Private Partnerships (PPPs) under the National AI Mission, and the National AI Portal for collaboration. Grants and financial incentives help startups and commercial businesses that work with governmental entities. Furthermore, cooperative research projects such as the AI Research Park at IISc Bangalore serve as excellent examples of these collaborations.
2.	Whether the government is considering strengthening AI research through the establishment of dedicated AI innovation centers, academic institutions, and startup ecosystems, and if so, the details thereof	Not Applicable
3.	Whether the government is considering tax incentives for firms investing heavily in AI research and development, and if so, the details thereof	Not Applicable
4.	The measures taken by the government to strengthen AI infrastructure, such as high-end hardware and software?	CRFC, NIT Srinagar has received approval to install high-performance computing (HPC) systems. The goal of this approval, which was given by the NIT Srinagar Board of Governors (BoG), is to improve the AI infrastructure inside the department. Advanced computational capacity required for intricate AI research and data processing will be made available by the HPC systems. The procurement and upkeep of these advanced equipment are guaranteed by the significant resources the government has provided to assist this project. This improvement would greatly expand the Institute's capacity for AI and machine learning research, enabling innovative initiatives and promoting academic excellence especially in the Department of CSE.

Subject: *Rajya sabha Provisionally Admitted Question No. 981 on 31.07.2024 to be answered on 31.07.2024 regarding "Linking Educational Institutions with Industry and Research Institutions"*

Sir,

This has reference to an email dated Wednesday, July 24, 2024, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S.No.	Information Sought	Reply
1.	whether the Institute has taken any steps to link educational institutions with industry and research institutions; (b) if so, the details thereof and outline the steps taken by the Institute in this regard; and (c) if not, the reasons therefor?	NIT Srinagar has been actively involved in industry and research activities for many years. The following projects have been undertaken with local and national Industries: i) Under the MoMSME design Expertise scheme, the institute has been selected as an implementing agency (IA) in 2021, actively involved in resolving industry design problems. Local manufacturing industries such as Jupiton Geyser Manufacturing Pvt Ltd, M/S K K Environment Solutions, and many industries located in the Industrial estates of Lassipora, Bagh-a-Ali Mardhan Khan, and Khanmou have been working in collaboration with NIT students and faculty. ii) Under Technology Information Forecasting Assessment (TIFA) DST, NIT Srinagar has undertaken projects with Industries such as Paper Machi, Cricket bat Manufacturing, and Wicker Willow to identify the technological gaps and recommend solutions. Two studies in Industrial clusters of cricket bat and Willow Wicker have been completed, and many more will be undertaken shortly. The projects are sponsored by TIFAC and DST, and Dr Saad Parvez, Associate Professor of the Mechanical Engineering department, is the principal investigator of the scheme, iii) Under the MSME Incubation Scheme, NIT Srinagar is also helping local manufacturers and service sectors in idea incubation relating to their interests. Three projects relating to Agriculture and tourism Industry have been successfully undertaken with financial and technical support from the Institute. The institute has developed unique machines such as a saffron processing machine, seed sown machine, walnut washing machine, and dehulling machine, which will be commercialized soon.

Hazratbal, Srinagar Jammu and Kashmir, 190006, INDIA

		Dr. Saad Parvez is the chairman of these MSME projects and has conceptualized the ideas. iv) NIT Srinagar has been actively involved in many research projects on local industries, including the handloom industry, to design and develop looms to revive the carpet industry. JKSTI&C has sponsored the projects. v) Research for Maruti Udyog Limited, Gurgaon, was completed by Dr Saad Parvez as his Research work. The project title was Building Taxonomy for Establishing Strategic Partnership with Original Equipment Manufacturers in an automobile manufacturing firm. The research was conducted to help Maruti Udyog obtain better performance from their OEMs to enhance the productivity and quality of manufactured cars. vi) NIT Srinagar has also established the Greenovator Incubation Foundation (section-8 company) as an Incubation center where industrial and business ideas are incubated. This incubator has been established under the NIDHI DST Scheme. Dr Saad Parvez is the principal investigator for the project. Startups relating to Tourism, Drone technology, Sustainable energy, etc, are currently being incubated. vii) Apart from the points mentioned above, Dr Saad Parvez, PhD in Industrial Engineering, has undertaken many industrial projects for B.Tech and M.Tech students for enhancing Productivity, Cost reduction, Effective and efficient utilization of resources, and design of men-machine systems. Currently, research on Industry 4.0 is also being carried out under his guidance to prepare the MSMEs of J&K to adopt the I4.0 technologies.

Subject: *Inputs regarding LS STARRED QUESTION NO. 84 regarding "Students migration to foreign countries" for answer on 29.07.2024*

Sir,

This has reference to an email dated Wed, Jul 24, 2024, received from NITs Division of MoE regarding the above-cited subject. In this regard, the required information pertaining to NIT Srinagar is as under:

S.No.	Information Sought	Reply
1.	Whether it is true that India is the world's second-largest student sending country after China with the number of Indian students abroad having increased four times in the last 14 years and if so, the details thereof;	Data not available with the Institute.
2.	The number of students migrated to foreign countries for education since the last ten years, State-wise;	Data not available with the Institute.
3.	Whether the Government ascertained the longstanding impact on students' migration of such magnitude has become a major source of capital and brain drain for India while hugely benefitting the economies of the advanced countries and if so, the details thereof;	Not Applicable
4.	Whether the Government had any study behind the reasons of large-scale student migration; if so, the details thereof and steps taken to check such large-scale migration of students; and	Not Applicable
5.	Whether the Government has made any attempt to understand the drivers of increasing emigration of Kerala students for higher education abroad?	Not Applicable

With regards,

Sd/-
